Assyrian Martyrs Day

August 7th is martyrs day for Assyrians. Assyrian communities around the world memorialize 3,000 Assyrians that were inhumanly murdered during the 1933 mass genocide in Iraq.

Despite trauma and burdens the Assyrian-American community stands resilient and determined to overcome adversity together with other communities.

Recognizing the 1933 Assyrian genocide welcomes the worth of the Assyrian community properly and honors the Assyrian-American community adequately, fairly and with full appreciation.

The Assyrian Democrats of California are forever indebted to the hard working Assyrian activists and organizers that advocate for recognition.

We hope all communities that sought sanctuary against hatred find peace and prosperity in America and around the world!

Sincerely,
Executive Boards of the Assyrian Democrats of Stanislaus County and Bay Area
